

SECONDARY SECTION

We at SVB's UMT High School firmly believe that education is not only about academic learning or accumulating knowledge and facts, but the all-round holistic development of an individual. We aim to make your child well rounded. Kind, compassionate human beings at heart while also equipping them with the tools to be global citizens in a highly competitive, multilingual, diverse cultured society. SVB's UMT High School follows the world-renowned. Preschool Teaching Curriculum, which gives prominence to activities and programs that identifies and nurtures your child's natural potential. The curriculum presents the child and gives various opportunities to explore, experiment and discover their true talents and skill. The curriculum focuses on not just the academic, but other developmental spheres of the child viz:- Social, Physical, Intellectual, Creative and Emotional, while optimising child development through engaging better teacher child interaction and initiating keen Parent Involvement.

The foundation to your child's schooling life, the pre-primary readies your child for the road ahead, imbuing in your child and a genuine love for learning and creating positive vibes towards future schooling and life.
